Our culture – to live the PMUSA values and use the leadership model

- **We are all people.**
- **We are in the USA.**
- **We care about communication.**
- **Solve problems.**
- **Don't believe you know it all.**
- **Challenge yourself and others.**
- **Do the right thing right the first time.**
- **Make decisions but make them right.**
- **Take risks you can be proud of.**
- **Share the credit not the blame.**
- **Everybody can make photocopies.**
- **Make recommendations if you can.**

Goal of scientific communication

To share our science with and invite peer-review from the scientific and public health community in order to enhance both their and our effectiveness in addressing issues related to smoking and health.

- **Accurate and responsible** compilation of our science in context.
- Sharing of our non-proprietary **concepts, methods, designs, data, conclusions and interpretations.**
- Inviting **peer-review.**
